

Feedback Form

Client: Lucy Moss

Photographer: Laura Stobart

Service Provided: Product shoot and editing of images

Things to feedback on:

- Pre-shoot organisation, mood board, communication and ideas
- During shoot, did I communicate with you well?
- After the shoot are the edits of the images to your liking?
- After the shoot, delivery of images, timing
- Final images, are you happy with the results
- Anything you would change?
- Would you hire me again/recommend me to others?
- Any other feedback would be appreciated too

Feedback:

The shoot was well organised prior, Laura was very flexible in timings and last minute changes which suited us both. Our communication was the perfect amount, solving any problems that occurred and the description and understanding of ideas.

During the shoot, I feel Laura was slightly stressed (as it was a day before her deadline) so her mind wasn't exactly there at all times. But that didn't stop her taking some great photos. I would recommend in the future having an assistant which helps with positioning and is a little more attentive to Laura's and the clients requirements (again I understand due to deadline stress).

I absolutely love the one shot which was edited with colour, if there was more time I would have asked her to do more similar. The timing of the final images was great no quieres about that.

I would definitely hire Laura and recommend her to others, even in this type of shoot as I know this isn't her specialism. Overall, the shoot was organised well, but I'd maybe of recommended a tripod for some shots as I would like to have seen more consistent images.
